Brios

High-capacity payment kiosk for the recycling of banknotes equipped with robust software with the greatest functional coverage and a high-security safe box, electronic lock, alarm and the possibility of installing an inking system.

It digitizes the information, optimizing decision-making while enabling remote management and viewing of transaction and fill-level reports.

Ideal for dealing with transactions with a high banknotes flow such as in financial institutions, service companies, arcades, bingo halls and casinos.

The management of change in payment operations is executed through tickets or virtual balance.

Customizable overdoor with corporate vinyl.

We process, manage, reduce and eliminate cash handling in a safe and controlled manner as we are integrated with the main operating companies in the sector.
Brios eases the following processes:
